A publication to benefit high school students, college advisors and parents.

## Senior Career Fair at Bishop Lynch a HUGE Success!

Visiting students, college advisors, and administrators from Nolan Catholic and Uplift Education thoroughly enjoyed participating in the 2nd Annual MajorEdge Senior Career Fair held on October 14th at Bishop Lynch High School! When one senior was asked how he was enjoying the event he said “I am sorry Mr. Macias, this is great but I must get to the next session and I will tell you all about it later!”

MajorEdge Career Fairs consistently attract experienced working adults from over 40 career fields into schools for a 2 1/2 hour period which allows the students to ask key questions about their careers.

Several enhancements were created for this year’s event including a panel discussion that was conducted after the career sessions were completed. Career Coaches stayed to answer additional questions and share their insight on success in college and career choices to the group of 250 eager senior students. A mentoring program from ACE was introduced! ACE means: Architectural, Construction and Engineering. Lastly, video footage was shot throughout the event and many interviews were conducted by Michelle Longoria, the Bishop Lynch videographer. “Great opportunity for HS students to learn about different career opportunities. Well run – great program!” quoted one coach. Stay tuned for the finished video!

Thank you to the Career Coaches for providing your tremendous insight and knowledge!

### Quotes of the Month

“The MajorEdge online tools helped me learn which careers suit me best. Everything the adults said at the career fair was very helpful.”

Rebecca B. | Bishop Lynch 2015 Senior

“After using the MajorEdge online tools, I learned that there are many careers that I never would have thought about. I found the web site to be very user friendly and easy to use.”

Mary B. | Bishop Lynch 2015 Senior

By request, we feature a Career Spotlight of the Month, which showcases a “hot”, “new”, “emerging” or “best long-term employment & pay forecast” career! For additional information about this career, students can go to their MajorFinder results page after taking the MajorFinder assessment, click on a major and then click on a career to learn more!

*Logisticians work to understand customers' needs and how to meet them.*

## What Logisticians Do

Logisticians analyze and coordinate an organization's supply chain—the system that moves a product from supplier to consumer. They manage the entire life cycle of a product, which includes how a product is acquired, distributed, allocated, and delivered.

## Work Environment

Logisticians work in nearly every industry. The job can be stressful because logistical work is fast paced. Most logisticians work full time during regular business hours.

## How to Become a Logistician

Although an associate's degree may be sufficient for some logistician jobs, a bachelor's degree is typically required for most positions. Industry certification and work experience in a related field can be helpful for jobseekers.

## Pay

The median annual wage for logisticians was \$72,780 in May 2012.

## Job Outlook

Employment of logisticians is projected to grow 22 percent from 2012 to 2022, much faster than the average for all occupations. Employment growth will be driven by the important role logistics plays in the transportation of goods in a global economy. Job prospects should be best for those with a bachelor's degree and work experience related to logistics.
